Experience

Frangina Miño is a lawyer, graduated from the University of Montevideo. She holds a postgraduate degree in Corporate Advisory from the University of Montevideo and have actively participated in various seminars and training programs to enhance her expertise in intellectual property and M&A, as seminars "Law and New Technologies" organized by the Uruguayan Bar Association and "Contracts for Intangible Assets" at the University of Montevideo.

Her practice is centered on corporate advisory, with a particular focus on intellectual property (an area in which she has 7 years of experience, including a legal internship at the National Directorate of Intellectual Property of Uruguay) and data protection, involving legal advice on contractual affairs, due diligence processes, M&A, among others.

She has been involved in the acquisition and sale of technology and other kinds of companies that have significant intellectual property assets. In addition, she provides daily advisory services on issues related to intellectual property, image rights, data protection and advertising and advise local and international entities in the protection and registration of their trademarks, patents, copyrights and software.
