Experience

Federico Pereyra Burghi, lawyer, concentrates his activities in the Litigation Department of Guyer & Regules, specializing in Administrative Law and Customs Law matters.

His practice in the field includes advising clients on these matters in general and on issues related to customs, fuel market, foreign trade and aviation law. Participates actively in complex litigation matters, international public tender procedures, private initiatives and financing, contract writing, administrative appeals before the State, management of public registries and lawsuits against the State before the Administrative Litigation Court (TCA).

He is Professor of Administrative Law at Catholic University of Uruguay and Republic University of Uruguay (UdelaR). Postgraduate professor in courses for lawyers at Uruguayan Bar Association. Graduated from International Trade Technician by Chamber of Commerce of Uruguay (2023). He is coursing specialization in Customs Law at ADAU.

In the academic field, he has participated in several research activities and articles as an author and as a speaker at national and international conferences.
